EXPERIENCE

SproutLoss

Falls Church, VA

Link: <https://apps.apple.com/us/app/sproutloss/id6800016799>

Mar 2026 - Present

- Independently launched SproutLoss to production on IOS App Store, serving 20+ customers, by developing the full-stack React Native/Expo application, Supabase backend, and Apple in-app purchasing system
- Expanded product accessibility across 7 languages and 3 progress timeframes by building localized weight tracking, goal analytics, trend visualizations, and personalized weekly summaries
- Created a gamified social experience featuring 154 customization items and 3 real-time interaction flows like friend requests, messaging, and push notifications using Supabase Realtime and Edge Functions
- Strengthened account security across 3 authentication methods by integrating email, Google, and Apple sign-in with account-bound Pro entitlements, purchase recovery, and end-to-end data deletion workflows

Verizon

Ashburn, VA

Software Developer Intern

Jun 2024 - Aug 2024

- Conducted end-to-end testing of the Application Design Tool (ADT) and APIs, ensuring seamless functionality and scalability
- Improved test maintenance using the Page Object Model (POM) and automated testing with Nightwatch.js
- Boosted testing efficiency by 87%, reducing test case execution time from 2 minutes to 16 seconds through parallel testing

Verizon

Falls Church, VA

Software Developer Intern

Jan 2024 - Jan 2024

- Developed the frontend of the newly improved Verizon Cloud Platform using React, JavaScript, HTML, and CSS, enhancing customer and developer experiences with a simplified UI and modernized codebase
- Presented new design to stakeholders and leadership, earning positive feedback for streamlining processes and delivering high-impact results
- Integrated the frontend with backend, unifying data from multiple sources into a single application

AWARDS

Verizon

July 2024

- Winner of Verizon Volunteer STEM Next
- Collaborated in a group of 6 and presented project to the sponsors of STEM Next
- Supported STEM Next's mission to build a STEM learning ecosystem

Hackathon

Oct 2023

- Winner of the PatriotHacks hackathon at George Mason University
- Developed "Pixel Fit," a cross-platform mobile app with React Native using RPG video game elements to promote fitness and health
- Led a team of 4 in designing the user interface and experience
