EXPERIENCE

Fragr AI

Software Engineer Intern

Falls Church, VA

Jan 2025 - Current

- Collaborated cross-functionally with designers and stakeholders to build a responsive landing page using React, Javascript, HTML, and CSS, enhancing user experience and responsiveness
- Led a full-stack team and developed a plan to integrate Clerk's API with different tech stacks, delivering a scalable and secure solution on time
- Currently integrating Stripe through React for payment issue

Verizon

Software Engineer Intern

Ashburn, VA

Jun 2024 - Aug 2024

- Conducted end-to-end testing of the Application Design Tool (ADT) and APIs, ensuring seamless functionality using the Page Object Model (POM) to improve test maintenance
- Automated testing with Nightwatch.js, implemented parallel testing, and built a scalable foundation for future expansion
- Boosted testing efficiency by 87%, reducing test case execution time from 2 minutes to 16 seconds

Verizon

Software Engineer Intern

Falls Church, VA

Jan 2024 - Jan 2024

- Developed the frontend of the newly improved Verizon Cloud Platform using React, JavaScript, HTML, and CSS, enhancing customer and developer experiences with a simplified UI and modernized codebase
- Presented new design to stakeholders and leadership, earning positive feedback for streamlining processes and delivering high-impact results
- Integrated the frontend with backend, unifying data from multiple sources into a single application

PROJECTS

Portfolio

[Link](#)

Falls Church, VA

Jan 2025 - Jan 2025

- Developed a visually appealing, responsive portfolio using React, Javascript, HTML, and CSS, showcasing seamless navigation and interactive components tailored to highlight your skills and projects effectively
- Implemented best practices in performance optimization, accessibility, and responsive design to ensure an engaging experience for visitors on all devices
- Added a dynamic timeline with filters and a carousel to showcase awards, experiences, and achievements effectively.

AWARDS

Verizon

Jul 2024

- Winner of Verizon Volunteer STEM Next
- Collaborated in a group of 6 and presented project to the sponsors of STEM Next
- Supported STEM Next's mission to build a STEM learning ecosystem

Hackathon

Oct 2023

- Winner of the PatriotHacks hackathon at George Mason University
- Developed "Pixel Fit," a cross-platform mobile app with React Native using RPG video game elements to promote fitness and health
- Led a team of 4 in designing the user interface and experience
